Incredible Series

INCREDIBLE CLEAR VIEW

6 HOURS ON A SINGLE CHARGE

The earphones' 40mAh capacity battery allows continuous playback of favorite tracks for 6 hours without recharging. They charge from 0 to 100% in an hour and a half. The charging case is equipped with a 400mAh battery.

CONCENTRATION SOLELY ON MUSIC

The noise-cancellation function ensures comfort while listening to favorite tracks by eliminating unwanted noise.

PROTECTION FROM MOISTURE IPX

This level ensures protection of the device's internal components from direct splashes of water and dirt.

COMPLETE SET CLEAR VIEW

The accessory set includes: a case cover for the case, a multifunctional strap, a gadget for cleaning the earphones, a cable for charging the earphones, and ear tips.

ENC TECHNOLOGY

ENC (Environmental Noise Cancellation) in Gelius Incredible headphones reduces ambient noise levels and ensures high-quality sound transmission during conversations.

Microphones on the external surface of the earphones collect sound signals, which are processed by a special processor that generates anti-phase sound to compensate for them. The result is high-quality sound, regardless of the ambient noise level.

SPECIFICATIONS

Bluetooth Version: V5.3
Earphones Battery: 40mAh x 2
Full Earphones Charge: 1.5 hours
Charging Case Battery: 400mAh
Charging Time: 2 hours
Playback Time: 6 hours
Talk Time: 6 hours
Standby Time: 100 hours
Charging Port: Type-C
Earphones Weight: 8.7g x 2
Case Weight: 46.9g
Operating Range: 10m
Supported Profiles: A2DP/HFP/HSP/AVRCP
Speaker: $\Phi 10\text{mm}$
Speaker Sensitivity: $91\pm 3\text{dB}$
Impedance: $32\Omega \pm 15\%$ at 1 kHz
Speaker Frequency: 20Hz-20kHz
Input Voltage/Current: DC 5V/380mA
Sweat Resistant: IPX4

Can Be Used On Airplane

INDISPENSABLE COMPANION IN TRAVELS

You can safely take an extra Krazi Air MaQ2 battery on the plane and charge your devices in unexpected situations. Travel, take photos, experience new emotions and always stay connected with the best extra battery ever you can imagine.

Technologies Supported:

ALL TYPES OF FAST CHARGING IN ONE DEVICE

Krazi Air MaQ2 Supports all existing protocols:

PPS/PD3.0/QC4.0+/3.0/2.0/FCP/BC1.2/AP PLE2.4, 3-port independently support fast charge. The power is enough to charge MacBook laptops.

PROTECTION WITH CARE

Thanks to its high power, the Krazi Air MaQ2 additional battery will charge gadgets very quickly. The smart identification system intelligently allocates power between charging devices.

The built-in multi-level protection system of the Krazi Air MaQ2 ensures maximum preservation of the gadgets' battery parameters.

USB Output

Overvoltage Protection

Over Temperature Protection

Voltage Protection

74 WH 20 000 MAH

It will provide sufficient power to supply all your electronic gadgets, offering an exceptional ability to extend the working time of devices when needed.

2 TYPE-C PORTS AND 1 USB PORT

Input Type-C1/2: PD/QC 5V/2.4A, 9V/3A, 15V/3A, 20V/3.25A (65W max)
Output Type-C1/2: PD/QC 5V/2.4A, 9V/3A, 15V/3A, 20V/3.25A (65W max)
PPS 3.3-5V/5A or 3.3-11V/6A (65W max)
USB Output: QC 4.5V/5A, 5V/3A, 9V/2A, 12V/1.5A (22.5W max)

Total Power: PPS 65W/PD 65W (max)

THREE TIMES MORE

Krazi Air MaQ_2 is capable of charging three devices simultaneously.

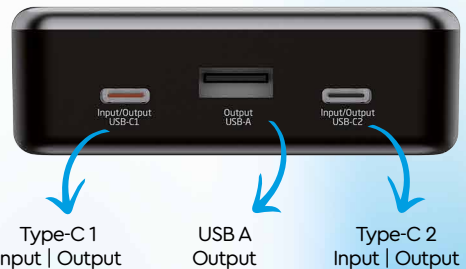

IT'S EVEN CAPABLE OF CHARGING A LAPTOP

Thanks to the Power Delivery feature, you can charge a laptop through the built-in Type-C port at a power of up to 65W. This is sufficient not only for maintaining charge but also for a full charge.

Simultaneously charges:

- ✔ Type-C1/2 = 65W max
- ✔ Type-C1 + Type-C2 (Type-C1 45W + Type-C2 20W = Total: 65W max or Type-C1 45W + USB 20W = Total: 65W max)
- ✔ Type-C1 45W + USB + Type-C2 15W = Total: 60W max
- ✔ Type-C2 + USB = Total: 15W max

Additional battery

EDGE 10000

FULLY CHARGE

Edge is an external battery for various portable devices. Powerbank will easily charge your smartphone, headphones, speakers and other gadgets. Edge has 2 USB outputs and 2 inputs: Micro-USB, Type-C. The design is made in such a way that you can charge the powerbank and gadgets at the same time. The external battery is also protected against overheating and overvoltage

INDISPENSABLE DURING TRAVEL

The device has a capacity of 10 000 mAh.

Therefore, Powerbank will be able to preserve the autonomy of your gadgets for a long time. The external battery has compact dimensions, despite the large capacity, has a power button and an LED indicator, which allows you to keep the charge level of devices under control.

Edge is simply an irreplaceable gadget for travel and everyday life

CHARGE 2 GADGETS AT THE SAME TIME

Two USB connectors allow you to charge two gadgets at the same time. It is very convenient and practical. The compactness of the additional battery is always a plus. Powerbank fits easily in a purse or pocket

UNION

WIRELESS CHARGER

GP-WC010

Incredible Series

The Union Wireless Charger is a convenient and modern wireless charging device. It can be used to charge smartphones, smartwatches, and headphones. The device intelligently selects the required charge to efficiently and quickly power up gadgets.

TRANSPARENT DESIGN. COMPLEX CASING

The Wireless Charger Union features a transparent, modern, and attractive design. The casing, made of tempered glass and metal, ensures long-term device durability. Additionally, the capability to fold and unfold the casing by 90 degrees makes it compact and convenient to use.

3 DEVICES AT ONCE

The Wireless Charger Union allows charging devices that support MagSafe and Qi technologies. You can quickly and simultaneously charge a smartphone, headphones, and an Apple Watch. The wireless charging power is 15W for the smartphone, 3W for the Apple smartwatch, and 5W for the headphones.

FEATURES

- ✓ Material: Tempered glass, metal
- ✓ Port: Type-C
- ✓ Input: 9V-2A, 5V-2A

Multifunctional smartwatch

AMAZWATCH GTS

Amazwatch GTS stands out with a 1.9-inch screen featuring a slim bezel of 0.8mm and a screen-to-body ratio of 98%. The integrated 3D curved screen in the watch ensures smooth and effortless touch interactions with every touch.

BLUETOOTH CALLS

Regardless of whether you're working, managing daily tasks, or engaging in sports, the Amazwatch GTS will become your personal assistant. It supports the latest Bluetooth connection technology (one connect), making calls even easier and more accessible. You can answer, make, reject, and cancel calls. Use the call log for quick dialing.

HEALTH MONITORING

Accurate dynamic heart rate sensor. Continuous 24-hour real-time monitoring. Heart rate and blood oxygen monitoring throughout the day with the Amazwatch GTS will help you stay informed about your current health status.

Incredible Series

GP-SW010

Multifunctional smartwatch

AMAZWATCH GT3

Amazwatch GT3 supports Bluetooth calls, and you can also use the watch's call log to redial. The smartwatch displays messages and reminders from messengers, applications, and also allows you to control your smartphone's player.

POWERFUL AND BRIGHT

The smartwatch features a large, colorful 1.43-inch AMOLED display with a resolution of 466x466, providing high clarity. It is equipped with a highly integrated processor designed for running artificial intelligence applications. The chip combines two Cortex-M33 STAR processors, a high-performance 2.5D graphics engine, an AI accelerator, and Bluetooth LE wireless communication. The Amazwatch GT3 comes with various vibrant straps.

HEALTH MONITORING

The new sensors for measuring heart rate, blood oxygen, and other indicators allow you to stay informed about your health status at all times.

The smartwatches feature over 100 sports modes so that you can always track your achievements and set new records.

Multifunctional smart watch

Waterproof backpack

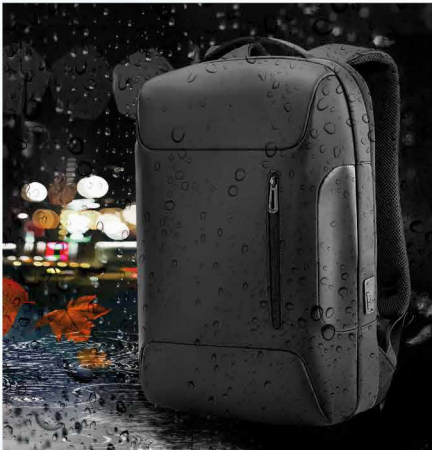

PROTECTOR 3

WATERPROOF BACKPACK

GP-BP008

WATER RESISTANCE

Gelius Backpack Waterproof Protector 3 is made from water-resistant and durable fabric, so rain and snow are not a concern - your belongings are safe!

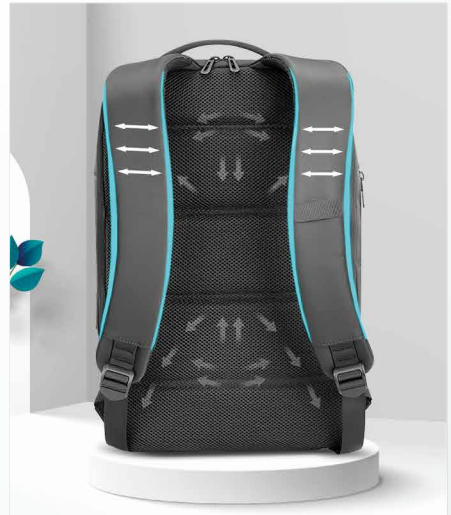

FEATURES

- ✔ Weight: 0.77 kg
- ✔ Volume: 20 L
- ✔ Dimensions: 45x28.5x14.5 cm
- ✔ Material: Polyester

BREATHABLE BACK

The backpack's surface on the back and handles is breathable, quickly wicking away sweat. This way, you'll feel less suffocated, keep your back dry, and experience minimal pressure on your back.

COMPARTMENTS

- ✔ Hidden side pocket for a bottle or umbrella,
- ✔ Main compartment with special openings for a power bank and smartphone,
- ✔ Laptop compartment,
- ✔ Front zippered pocket for small items like headphones, a flashlight, etc.

A city and travel backpack

PROTECTOR 2

WATERPROOF BACKPACK

GP-BP006

The Gelius Backpack Waterproof Protector 2 is a stylish, versatile, and highly convenient backpack that doubles as both a daily accessory and an assistant. This fashionable black backpack is suitable for all seasons and matches various clothing styles. Black is considered a staple color in accessories, always remaining relevant and harmonizing well with most other colors.

RELIABLE PROTECTION

Waterproof Protector 2 is made of moisture-resistant fabric to safeguard your belongings and gadgets in case of sudden rainfall. The waterproof material effectively blocks sudden splashes of water. High-density fabric that doesn't let moisture seep in is utilized.

VERSATILITY

Practical in the smallest detail: key holder, bottle pocket, glasses compartment, carrying handle – all this makes Waterproof Protector 2 a great companion on your trips.

BREATHABLE BACK SYSTEM

This technology allows the backpack to fit snugly against the back, and the system of special anatomical channels and 3D breathable mesh makes ventilation possible.

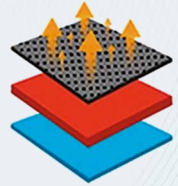

Reflective stripes on the front and rear ensure visibility if you find yourself on the road at night.

Tightly padded foam with high elasticity

3-layer thickened back wall 2 cm

PECULIARITIES

- ✓ Laptop backpack 15"
- ✓ Water-repellent material
- ✓ Laptop compartment with shock absorbing padding
- ✓ Multiple secret pockets
- ✓ Orthopedic back

LED Light

1.25m Length

FAST CHARGING UP TO 60W

The Gelius Fusion supports fast charging for devices using the Power Delivery (PD) standard. Specifically, it enables charging with a power of up to 60W, allowing for quick charging even for more powerful devices like laptops. The cable provides data transfer speeds of up to 480 Mbps and its shielding prevents it from being affected by electromagnetic interference.

Charging and data transfer cable

FULL SILICON

USB CABLE

GP-UCN001

- ✓ USB-A - Lightning (2.4A)
- ✓ USB-A - Type-C (2.4A)
- ✓ USB-A - Micro USB (2.4A)
- ✓ Type-C - Lightning (30W)
- ✓ Type-C - Type-C (60W)

The cable enables synchronization and charging of gadgets through USB and Type-C ports due to its wide range of connectors. You simply need to select the appropriate cable. The Gelius Full Silicon can be an ideal addition to a portable charging device.

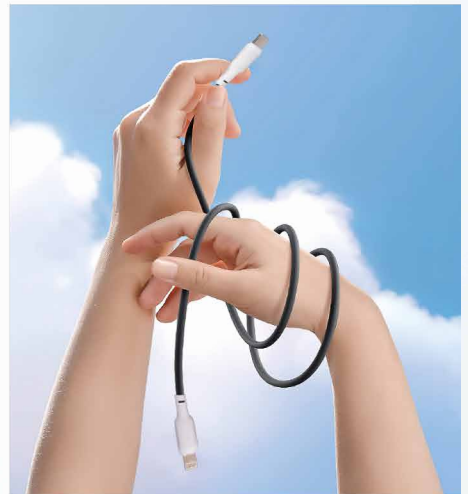

60W 30W 2.4A

The Gelius Full Silicon is a high-quality cable designed perfectly for charging your device and data transfer at speeds of up to 480 Mbps. It features white connectors and a black wire, making it stand out among others

FLEXIBLE AND RELIABLE

The 1.2-meter length allows convenient gadget connection over distance. The Full Silicon is made from elastic material, reliable in usage, which also prevents bending. This is one of the cable's key advantages.

FEATURES

- ✓ Support for fast charging
- ✓ Charging and synchronization function
- ✓ Data transfer speed up to 480 Mbps
- ✓ Throughput capacity: 2.4 A
- ✓ Material: elastic TPE
- ✓ Length: 1.2 meters

THOUGHT OUT TO THE LAST DETAIL

Made of high quality material that can withstand multiple charges, plugs and bends. Also, a durable aluminum alloy was used for the manufacture of the G-Power cable interfaces to ensure a snug fit to ports and maximum performance.

PECULIARITIES

- ✓ High quality material. The cable is made of durable material, which is characterized by reliability, durability and conductivity.
- ✓ The cable length is 1 meter. This is enough to connect devices at a comfortable distance.
- ✓ G-Power GP-UC103 provides 3A 60W and GP-UC105 - 5A 100W, which will also charge notebooks.

COMPATIBILITY

Delivery protocols with a maximum power from 18 to 100W (there are 3 modifications of the G-Power cable - 18W / 60W / 100W).

The Gelius Pro G-Power series cable is used to transfer data, charge and synchronize two devices with corresponding ports. The optimal length of 1 meter makes it convenient to connect equipment at home or in the office from a distance, without limiting your space.

SAFE CHARGING

The cables charge your device quickly and fully without damaging it or overheating.

Wireless car charger holder

ODYSSEY

WIRELESS CAR HOLDER

Incredible Series

GP-WCH010

2 MOUNTING OPTIONS

The holder can be easily attached to the air vent or to the windshield

WIRELESS CHARGING

The Gelius Odyssey wireless charger has a power output of 15W. Holders at the bottom and on both sides help securely fasten the smartphone during charging. An integrated intelligent chip automatically blocks charging in case of road irregularities and swiftly resumes, ensuring safety and charging efficiency.

"When power supply to the holder stops, a sound signal activates, indicating the need to remove the smartphone. The built-in capacitor opens the holder when the power is disconnected.

RELIABILITY

Over V/A/T protection + FOD is a battery protection system from overvoltage, overload, and overheating. It also includes protection from short circuits (FOD). This ensures your device's safety during charging and promotes its long-term and reliable operation.

Air vent car holder

MAGNETIC

CAR HOLDER

GP-CH010

The main advantage of the baffle holder is its compactness. It takes up a minimum of space and does not interfere with the driver's view at all. The quality materials from which the Gelius Pro GP-CH010 is made will convince you of the reliability of the device. Powerful built-in magnets ensure that your smartphone remains firmly in place: it won't fall or budge, even when driving over bumps or uneven terrain

MOUNTING LOCATION

The sturdy clip snaps securely into the vehicle deflector.

ROTATION AT 360°

Thanks to the hinged fastening, you can install and fix the smartphone at an angle convenient for you. The soft cover of the magnetic platform and the clip in the deflector will reliably protect your smartphone and ventilation grills from abrasions and scratches.

COMFORTABLE FIXATION

The phone is attached to the holder using a metal plate and a built-in magnet. The plate can be fixed on the body of the gadget, or put under a case or back cover

Rotates 360° & Swivels 90°

Car Air Vent Mount

PECULIARITIES

- ✓ Minimalist thoughtful design
- ✓ Maximum ease of installation
- ✓ Ease of use
- ✓ Reliability
- ✓ Complete versatility

Wireless gamepad for tablets and smartphones

The corkscrew is suitable both for home wine parties and for professionals in this field: bartenders, sommeliers, restaurateurs.

Free time for the essentials!

LIGHTNING FAST WORK

An irreplaceable helper at any party or family celebration. It takes only 6-8 seconds to remove the cork from the bottle with a minimum of effort. A great gift for a wine ceremony connoisseur, for those who like to arrange a wine party at home, as well as a high-quality professional tool for sommeliers, bartenders, restaurateurs.

SPECIFICATIONS

Size: 25.2 x 4.5 cm
Weight: about 300 g (without batteries)
Material: aluminum, PC, stainless steel
Rated voltage: 4.8V
Accessories: 1 x foil cutter, 4 rechargeable batteries, 1 x USB charging cable

TAKE 3 EASY STEPS

- Press the corkscrew firmly against the bottle
- Lower the spiral of the corkscrew into the cork by pressing the "Down" button
- Remove the plug using the "Up" button

Protective film for the plotter

GELIUS PLOTTER SHIELD GEN3

BASIC BENEFITS

- ✔ Suitable for using hydrogel films of any manufacturer
- ✔ Cutting films for smartphones, tablets, watches, cases, headphones, etc.
- ✔ Ability to view statistics for 1 day, 7 days, 1 month
- ✔ Database of available models, constantly updated, for cutting
- ✔ The warranty on the plotter is 12 months, as well support of other warranty conditions
- ✔ Real-time technical support
- ✔ The best prices for films

HOW THE PLOTTER WORKS

- ✔ Install the film
- ✔ Choose a gadget model
- ✔ Click "start cutting". The cutting process will start automatically
- ✔ Then it remains only to stick the film on your gadget

TECHNICAL SUPPORT

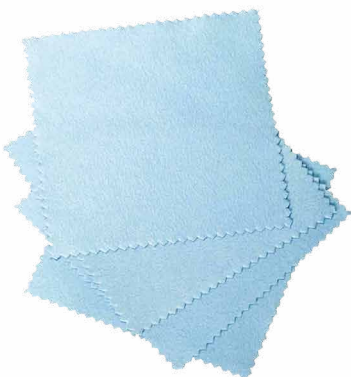

- ✔ Solving problems related to plotter operation
- ✔ Plotter installation together with our specialist
- ✔ Learning how to work with a plotter
- ✔ To support our customers, we have created a technical support line that you can contact to resolve the listed issues. Our specialists will contact you in a convenient way and answer all your questions
- ✔ It is possible to solve problematic issues in real time
- ✔ Long service life, which is ensured by prompt replacement of worn parts and consumables
- ✔ Solving your question and promptness are the priorities on which our technical support specialists will rely

ACCESSORIES FOR FILM AND GLASS

LIQUID FOR CLEANING THE SCREEN

Universal tool for the care of cameras, screens of smartphones, laptops and video cameras

MICROFIBER NAPKIN

Microfiber napkin is made of microfiber polyester and nylon. Designed to remove dust, dirt, grease, moisture and fingerprints. Suitable for both dry and wet cleaning. It is allowed to use with chemical means

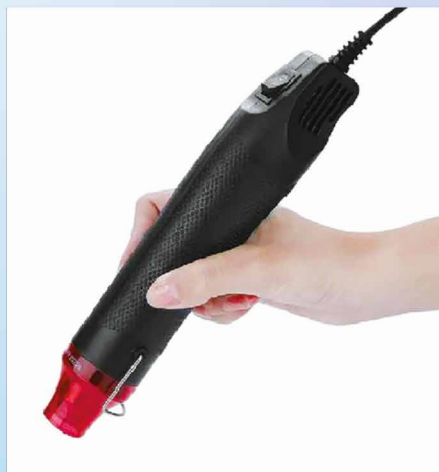

SPATULA FOR GLUING

The spatula is designed for working with plotter films. Due to the felt coating, the spatula is particularly soft and does not damage the film during operation

CLEANING AGENT

Gelius Pro Screen Cleaner Set is a set for cleaning touch panels of portable gadgets or optics. It consists of a 10 mm container with a cleaning spray, as well as a microfiber cover that acts as a sponge for wiping the surface after applying the product. The set also includes a transparent case into which the sponge and the bottle are stored after use. The cleaner is very compact, its dimensions are 30x30x92 mm, so it will not take up much space in a purse or on a desktop.

HAIRDRYER FOR HEATING THE FILM

A convenient heat dryer does a great job with hot glue, heat shrinks, etc.

- ✓ Air temperature: 200 °C
- ✓ Declared power: 300 W

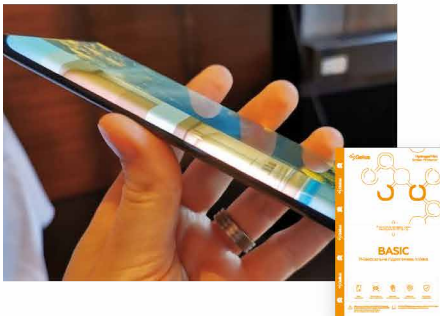

Protective film for the plotter

- ✓ **BASIC**
- ✓ **MATTE**
- ✓ **PRIME**
- ✓ **UV-OPTICS**
- ✓ **SMART WATCH**

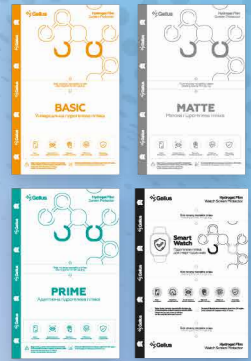

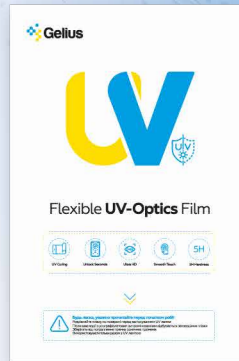

BASIC BENEFITS

- ✓ Effectively protects against mechanical damage
- ✓ Does not affect the operation of the fingerprint scanner
- ✓ Does not affect the clarity, colors and brightness of the display
- ✓ It is easy to glue and automatically removes dust residues with the installation layer

ПЛІВКА BASIC

Має універсальні характеристики використання та поклейки
Зручна для знайомства з поклейкою та порізкою плівок
Найвигідніша пропозиція для покупця
Підходить для типів екранів, глянцевих поверхонь та годинників
Товщина 0,12 мм

4 LAYERS

- ✓ Lining
- ✓ Installation layer
- ✓ Hydrogel film
- ✓ Protective layer

MATTE FILM

Gelius Matte transparent matte hydrogel film with a thickness of 0.16 mm on acrylic glue. Prevents glare and reflections, does not collect fingerprints

FILM PRIME CLEAR

Transparent glossy premium film Gelius Prime 0.16 mm thick on silicone adhesive. Quite plastic, it is well suited for EDGE screens of any type

UV-OPTICS FILM GLASS CLEAR (BOX) +UV LAMP

Complete set of 25 hermetically packed films and a UV lamp specially selected for this film thickness (0.12 mm).

Thanks to ultraviolet light, the film density increases and the glue crystallizes for improved adhesion. This gives the surface the tactile properties of protective glass and the hardness of 5H (hybrid characteristics of protective glass and film).

UV-Optics film is a new level of comfort

SMARTWATCH FILM

Hides scratches and damages on the watch screen
Comes with 3 slits for adhesive application and includes 6 pre-cut templates for watches
Thickness: 0.12mm

TABLET SCREEN PROTECTOR FILM

Highly flexible - easy to apply and adheres lightly.
Protects the surface from damage.
Easy self-application.
Size: 200x300mm (for devices up to 12").
Thickness: 0.16mm.

Important: For precise template cutting, it's recommended to use a reusable backing

INCREDIBLE ADVANTAGES

Using polyurethane films in combination with the innovative Gelius Plotter Shield Gen3 not only ensures high-quality and precise cutting of films but also provides unparalleled durability and resilience to the manufactured products.

Case for smartphone

BOOK COVER GELIUS SHELL

EASY ACCESS TO PORTS

Book Cover Gelius Case has easy access to all built-in connectors of your phone. All ports are well protected and at the same time easily accessible

INNER SILICONE SURFACE

The inner surface of the Book Cover Gelius Shell is silicone and better protects the smartphone from unwanted scratches

CONVENIENT WATCHING OF MOVIES

Thanks to the multifunctionality of the case, it can be folded as a stand and watch your favorite movies from your phone in any convenient place

BUILT-IN MAGNETS

Thin surface, thanks to which the case fits the phone well. And with built-in magnets, Book Cover Gelius Shell is easy to open and close

Case for smartphone

FULL SOFT CASE

SOFT INNER SURFACE

Thanks to the microfiber inside the cover, the smartphone is reliably protected from scratches, mechanical damage and dust. The inner surface is soft and pleasant to the touch

EASY ACCESS TO ALL PORTS

The case has all the necessary cutouts for quick access to function keys, necessary ports, outputs, camera, speakers

FULL CAMERA PROTECTION

The inner surface of the Book Cover Gelius Shell is silicone and better protects the smartphone from unwanted scratches

MADE OF SILICON

The cover is made of high-quality silicone with a matte non-slip surface, thanks to which it reliably fixes your smartphone

Protective glass

GELIUS FULL COVER

ULTRA-THIN 0.25mm

SUPER PROTECTION AGAINST SCRATCHES

Full Cover Ultra-Thin 0.25mm is an effective solution for protecting your smartphone screen from scratches and wear, as well as from cracks and a broken screen.

THICKNESS 0.25 MM

The thickness of the accessory is only 0.25 mm, that is, it is thin and solid, but due to complete transparency, it is not visible on the screen itself. Its minimal thickness allows you to maintain full sensitivity and transparency, without affecting the operation of the sensor, nor the brightness, nor the clarity of the image

EASY TO ATTACH TO YOUR SMARTPHONE

Adhesive glass is much simpler than silicone-based film, but does not bubble with air and does not bend at the edges. You can do it yourself at home

Full Coverage

Reliable Protection

Ultra Thin

Scratch Protection

Super Finger Slide

Case for smartphone

GELIUS ULTRA THIN PROOF

MINIMUM THICKNESS

The case will effectively protect your smartphone from abrasions, dust, scratches and, thanks to its minimal thickness, will provide maximum comfort in use

RELIABLE SMARTPHONE PROTECTION

Ultra Thin Proof will be a reliable protector of your phone. The silicone cover easily absorbs all possible shocks thanks to the protective edges

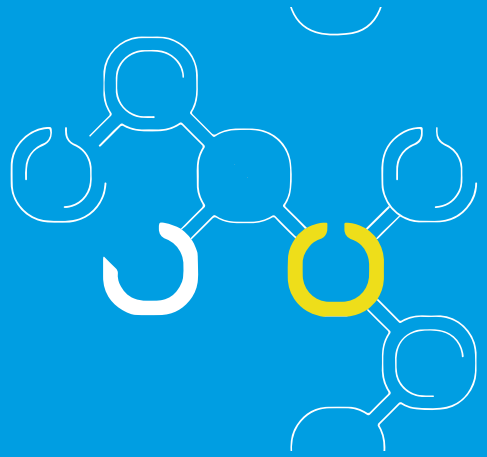

EASY ACCESS TO ALL PORTS

The display, speaker holes, and charger port are open and accessible

TRANSPARENT AND COMFORTABLE

Transparency combined with reliable protection of your smartphone - these are the main advantages of the case

Portable true wireless speaker

SHARK X

BLUETOOTH SPEAKER 2 IN 1

KZBS-003X

The SHARK X speaker easily converts from one to two speakers. This allows you to install speakers from different sides, creating a true stereo sound.

IMMERSE YOURSELF IN SOUND ON 360 DEGREES

SHARK X is a new generation speaker that provides incredible 360-degree sound. Its technology allows you to enjoy powerful and immersive sound from any direction. Thanks to this speaker, your musical experience becomes more intense and exciting, taking you to the very heart of the audio experience.

POWER DYNAMICS

Speaker Shark X with 2 x 10W speaker power and 60Hz-18kHz frequency guarantees rich and powerful sound, ideal for playing various music genres. Low and high frequencies are reproduced with impressive clarity, providing a sound spectrum of high quality.

BLUETOOTH 5.3

Bluetooth 5.3 provides improved data transfer speed, connection reliability and increased energy efficiency. This means that SHARK X easily pairs with your smartphone, tablet or other devices, allowing you to stream music without any interference.

IPX6 PROTECTION

IPX6 protection makes SHARK X the perfect companion for outdoor use, at the beach, camping or during outdoor activities.

This feature allows the speaker to remain efficient and functional even during short-term immersion in water or when exposed to adverse weather conditions.

Portable true wireless speaker

START X

BLUETOOTH SPEAKER

GP-BS1002X

SOUND, THAT SHINES

Give your music a new dimension with our audio speaker, which is equipped with stylish LED lighting. Enjoy powerful sound accompanied by an exciting light effect

BLUETOOTH 5.3

Start X is a high-quality audio speaker that offers unparalleled sound and seamless connectivity thanks to Bluetooth 5.3. Enjoy clear and powerful sound anywhere without limitations, thanks to the advanced capabilities of this compact and innovative audio speaker

SOUND MAGIC

Start X is a small but powerful audio speaker with impressive speaker power of 6 W.

This amazing speaker allows you to enjoy high-quality and powerful sound, regardless of its compact design

PROTECTION IPX6

IPX6 water resistance ensures that the Start X speaker system can withstand strong jets of water without any damage, providing reliable protection against moisture and splashes

This makes Start X ideal for use outdoors, at the beach or by the pool, where there is a possibility of contact with water

Portable true wireless speaker

BOOMBOX X

BLUETOOTH SPEAKER

GP-BS500x

BLUETOOTH 5.0

This audio speaker with Bluetooth 5.0 support impresses with its high-quality wireless connection. Thanks to advanced technologies, you enjoy clear and powerful sound without losing quality when connecting over long distances.

BoomBox X is a compact and powerful portable speaker equipped with a 4000 mAh battery for a long time playing music. It provides high-quality sound, covering a wide range of frequencies and making your music experience richer.

✔ One of the key features of the BoomBox X is the impressive sound provided by two built-in speakers with a diameter of 52 mm and a power of 10 W each

✔ LED lighting that creates a unique atmospheric effect during music playback

✔ The speaker is equipped with a slot for a TF card, which allows you to enjoy your favorite tracks without connecting to other devices

✔ The speaker has a battery with a capacity of 4000 mAh, which provides a long working time of 6-8 hours

PROTECTION IPX6

IPX6 ensures that the speaker can withstand powerful jets of water without any damage, providing effective protection against moisture and splashes. This makes the BoomBox X an ideal choice for use outdoors, on hikes, at the beach or by the pool, where there is a possibility of water ingress.

Charging and data transfer cable

LUMIN LAMP

CHARGE AND SYNC CABLE

GP-UC100

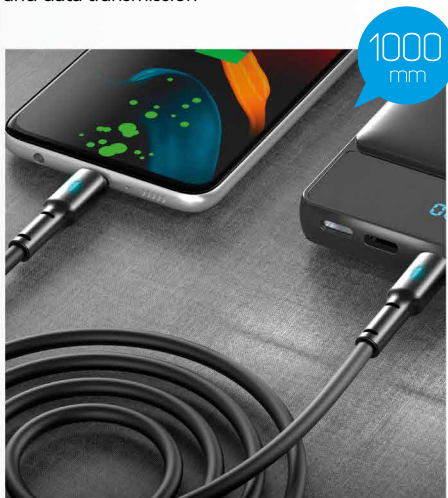

CONVENIENT LED INDICATION

USB Cable Gelius Pro Lumin is equipped with a built-in LED indicator. Thanks to this, you can understand that the gadget is in the process of synchronization or charging. Another advantage of the LED display function is that the connected device is easy to find in the dark

STRONG AND RELIABLE

Gelius Pro Lumin is an ultra-durable modern cable that is protected against wear and tear during long-term use. It can be used for both charging and data transmission

- ✔ Throughput capacity: 3A
- ✔ Power Type-C to Type-C: 60 W
- ✔ Charging devices and data transfer
- ✔ LED indication
- ✔ Cable length: 1 m
- ✔ Color: black

- ✔ USB-A to Lightning
- ✔ USB-A to Micro-USB
- ✔ USB-A to Type-C
- ✔ Type-C to Type-C

Cable format USB - Lightning | Micro USB | Type-C and Type-C - Type-C is universal and suitable for charging various gadgets, and the current strength in 3A allows you to speed up this process. Fast synchronization effectively reduces data transfer time between different devices.

The Type-C - Type-C cable allows you to charge devices quickly with a power of up to 60 W.

COMFORTABLE TO USE

The length of the cable is 1 meter, which allows you to comfortably connect devices to each other. Gelius Pro Lumin connectors are wear-resistant and made of zinc alloy, which increases the service life and makes the cable durable

Data sync

Fast charge

LED lights

60W

✔ Type-C – Type-C

DATA TRANSFER SPEED 480 MBPS

With a high data transfer speed of up to 480 Mbps, Gelius PowerFlex allows you to transfer a 1 GB movie in just 24 seconds, ensuring fast and efficient data exchanges. It is an ideal solution for those who value their time and seek the fastest way for charging and data transfer

The cable features a practical and convenient length of 1.2 meters. At a mere weight of 21 grams, it is lightweight and portable, making it ideal for travel or daily use. Gelius PowerFlex is a reliable accessory that combines power and speed

POWER FLEX

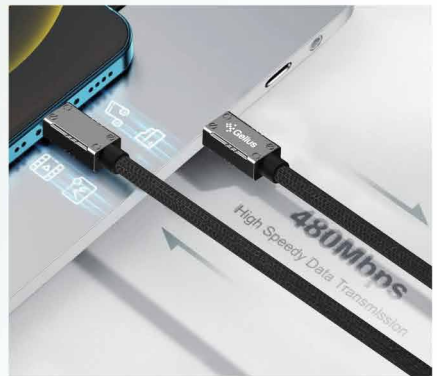

CHARGE AND SYNC CABLE

Navy Series

GP-UCN005

POWER 240 W

The Gelius PowerFlex stands out with an impressive high power of 240 watts. This means that the cable not only provides fast but also efficient energy transfer, ensuring optimal conditions for charging a wide range of devices, including laptops

Fast Charge

Data Sync

STRENGTH AND DURABILITY

The connectors of Gelius PowerFlex are crafted from a zinc alloy, providing them with extra strength and resistance to wear. This material not only ensures a reliable connection between devices but also makes the connectors resistant to external factors such as corrosion or high humidity. The cable has a nylon braided covering that enhances its resistance to external damage, bends, and twists, eliminating the possibility of tangling

Charging and data transfer cable

TWISTER

CHARGE AND SYNC CABLE

GP-UCN004

Navy Series

4 CABLES IN ONE

Gelius Twister has a unique design and advantage. It can easily charge any gadget, eliminating the need to think about which connector to match your device—it charges everything from iPhones and Androids to laptops and headphones

FAST CHARGING UP TO 60W CAN EVEN CHARGE A LAPTOP

Save a lot of time charging your gadgets, for instance, an iPhone can be charged 2 hours faster than with a regular charger. The 60W power is sufficient even for charging a laptop. The Type-C to Type-C cable supports fast PD charging at 60W, while the USB to Lightning supports PD at 30W

POWER PULSE

HOME | TRAVEL CHARGER

GP-HC057

The Gelius Power Pulse charger provides up to 65 watts of power for charging various devices, including smartphones, tablets, and more. This enables rapid recharging of your devices, including even laptops.

Gelius Power Pulse ensures a continuous charge and readiness of your devices for operation. The charger includes the PPS (Programmable Power Supply) protocol, allowing dynamic regulation of the output voltage

The Gelius Power Pulse charger is made of high-quality fire-resistant materials and equipped with 5 levels of protection. This ensures reliability in operation and extends the device's lifespan

CHARGE 3 GADGETS SIMULTANEOUSLY

Gelius Power Pulse is a reliable and powerful solution for quickly charging 3 gadgets simultaneously: smartphones, headphones, tablets, or other devices. It features 3 ports: 1 x USB-A and 2 x Type-C, which are the primary interfaces for charging smart gadgets nowadays.

for Android and iOS

Air vent car holder

MAG CLUMB

MAGNETIC CAR HOLDER

GP-UC021 Navy Series

POWERFUL MAGNETIC FIXATION

The MagClump Magnetic holder features a magnetic base and is entirely constructed from metal, ensuring a secure hold for your smartphone. An immensely powerful connection is guaranteed by 8 high-quality N52 magnets. This allows for quick and safe attachment and detachment of the device without the need for folding or fitting into specialized holders

SECURE SINGLE HANDED FIXATION

Magnetic connection provides convenience as the driver can easily insert or remove the phone from the holder using one hand, without getting distracted from the road. Holder securely attaches to the car's ventilation grid

360 DEGREE ROTATION

The holder allows you to secure the phone in any position. This can be particularly useful when using the phone for navigation in the car or for content viewing
